BOCHES USE NEW BOMBS
Paris, Oct. 9.—The Germans during the last few days have been using in their air work a new type of inflammable bomb, combining a great effectiveness with light weight. A single airplane, it is said, can carry 200 of these bombs.

The only way of fighting the first caused by this new form of destructive weapon appears to be the isolation of the blaze, as pouring water on it is literally adding fuel to the flames on account of the chemicals of which the bombs are somposed.
